Texture by: **Christian FONCK** – Geneva - Switzerland
This texture was created by using:

- The Jar Design PaintKit.
- Corel PaintShop Pro X9, Photo-Filtre, PhotoShop.
  The classic livery is normally for the 3 A320 aircrafts of this company. But I tried it on the A330 for fun.

Installation
- First download the A330 by JarDesign from http://jardesign.org/ and install it on your PC. This program is a payware. You can buy it on Xplane.org Website.
- After unziping **AZORES AIRLINES (Portugal) A330-200 - Classic livery.zip**, the **A330** folder should contain an **Objects** folder, and this **ReadMe.pdf**
- Objects folder should contain: **330_Engines_LH.png**, **330_Engines_RH.png**, **330_wing.png**, **fusel_1.png** and **fusel_2.png.**
- Add the **AZORES AIRLINES (Portugal) A330-200 - Classic livery folder and the 2 icons** to the liveries folder of the A330 and you will be able to load the livery in X-plane via the Aircraft Menu "Open Livery".

- Have fun and fly from your country to the beautiful and sunny Azores Islands via João Paulo II - São Miguel Azores airport or some other there ! ☺

Note: This livery is not for a commercial use. You can use it for you, and share it with others **only for free**.
